

Testbench Instructions:

```
11001000 -- Load 2 to 00 -- print 0
11010001 -- load 4 to 01 -- print 0
00110100 -- print 01 -- print 4
11001110 -- load 3 to 10 -- print 4
10011010 -- add 01 to 10 store in 10 -- print 4 -- 10 now 7
00111000 -- print 10 -- print 7
00000000 -- nop -- print should go blank
11010011 -- load 4 to 11 -- print back to 7
01011100 -- branch test 01 and 11 -- print 7
10010101 -- add -1 to 01 (shouldnt run) -- will print 00 instead "00110000"; --
print 00 = 2
00100000 -- neg 00 store 00 -- print 2
00110000 -- print 00 -- print -2
00000001 -- jump -- print -2
00100101 -- neg 01 (skipped) nop -- print blank
00110100 -- print 01 -- print 4
00100101 -- neg 01 to 01 -- print 4
00110100 -- print 01 -- print -4
```
